Owandy RADIOLOGY

OWANDY-RX PRO

PRECISION AND SIMPLICITY

INTRAORAL RADIOLOGY SYSTEM

OWANDY-RX PRO

LCD SCREEN
For a better reading of parameters from a distance

MEMORY FUNCTION
Modify pre-programmed exposure times

EXPOSURE PARAMETERS
Can be adjusted according to the type of tooth

DISPLAY PARAMETERS
kV, mA, type of film

DOSES
Adjust doses pressing "- +" buttons

PATIENT MORPHOLOGY
adult, child

EXAM TYPE
Occlusal or inter proximal

No vibration device

Flexible & Design

Because design is increasingly important in the practice, the **Owandy-RX Pro** combines technological requirements and modern design.

The arm is easy to adjust, flexible and robust. Its 3 arm lengths (16"/31"/43") are designed to adapt to the layout of your surgery, tailoring the unit to your workstation as effectively as possible.

Precision & Reliability

With a focal point of 0.4mm, the **Owandy-RX Pro** guarantees exceptional image quality, with well-defined contours, which will facilitate diagnostics.

The convenience of one handle helps to stabilize the **Owandy-RX Pro**.

The non-movement and as it does not vibrate, ensures perfect immobilization during exposure.

Mobile version

3 arm lenghts
16" / 31" / 43"

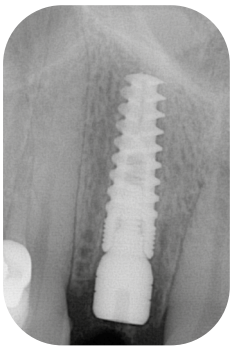
Flexible arm .....

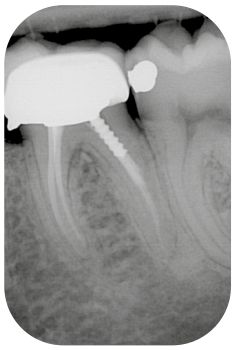
User-friendly

With its clear and large LCD screen, you can view the parameters even from a distance.

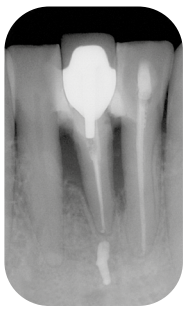
In addition, its "memory" functionality allows you to modify the pre-programmed exposure times according to the receiver (sensor or plates).

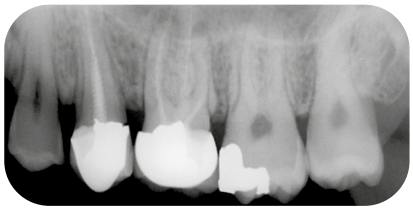
Clinical cases with phosphor plate

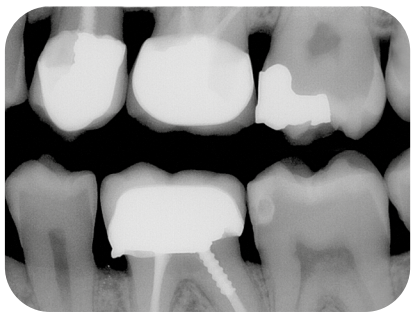




Clinical cases with digital sensor







TECHNICAL FEATURES

Category	Class I, type B
Supply voltage	120-240 V
High voltage	60kV / 65kV / 70 kV
Anode current	4-7 mA
Focus	0,4 mm
Total filtration	>1.5 mm Al. @ 70 kV
Leakage radiation	< 0,25 mGy/h
Technology	High frequency DC
Timer	Microprocessor controlled
Total weight	51 lbs
Arm extensions	16" / 31" / 43"
Options	Mobile version
Accessories	Circular cone Ø 60 mm (8" or 12") Rectangular cone (8" or 12")
